All about Federico:

Federico is passionate about scientific subjects. As he shares that interest with his father, he attends conferences on the subject at the university and exhibitions in the city. He lives at home with his parents and younger brother. He often cooks for the whole family. He loves family traditions and enjoys learning from his four grandparents about their experiences and family recipes. He goes to the stadium with his brother and they watch their favorite soccer team. Since 9 years old, he has been attending theatre lessons every Friday evening. He has tried the sports of swimming, fencing, and soccer, but he really enjoys tennis. After a busy day he watches a movie with his family, listens to music, or plays with friends on the PlayStation.
