Home Life:

Francisco lives with his mother, father, and brother

Interest & Achievements:

Soccer, Basketball, Swimming, Video Games, Meeting With Friends

All about Francisco:

Francisco comes from a close-knit family that often meets for lunch, holidays, and weekends in the countryside. The family enjoys spending vacations in the coastal cities of Brazil to enjoy the beautiful beaches. He enjoys the sea and water sports. He lives with his parents and older special brother who is autistic. Since a young age, he has been fond of sports like swimming, riding his bike, playing tennis and basketball. His favorite sport is soccer. He participates in competitions and goes to watch his favorite soccer team with his father. He likes to go the club on the weekends to meet friends and practice sports. He loves to interact with new people and learn new things and this is the main reason he is excited to have the experience of coming to the U.S. where he will improve his English, experience another culture, and live with different kind of people. Are you ready to share your America with Francisco?
