All about Ainhara:

My name is Ainhara. I am a very extrovert person and I'm always very active and happy, I'm also very creative and I love meeting new people and making friends! I think my personality is very open and unique.

I became very interested in studying in the U.S half a year ago now I believe, even though I've always wanted to go there but never been. I like how everything is there and I would love to learn more about it.

Some of my hobbies are traveling, listening to music, dancing, cooking, baking and spending time with my friends. I don't have as much time as I would like to but it is enough for me to enjoy some of my hobbies. I play the guitar and ukulele in my free time. I learned how to play both this summer. I like swimming and took lessons for 10 year. Before covid we used to have school Olympics games and every high school from my town participated, there were many sports to choose from. I won a silver medal in swimming and I'm very proud of it since it was quite hard!

I haven't decided yet what I would like to study in a future. I My favorite subject right now is Biology, we are learning about genetics and I think it is very interesting. I also enjoy Ethical Values because we are always learning very useful things for our everyday life and my teacher is great.
