All about Carlotta:

Dear Hosting Family,

I'm Carlotta and I'm 15 years old. In my family we are 4 people: my mom, my dad, my brother and me. I will always be truly grateful to them for giving me the opportunity to make this dream come true.

I'm very happy to take part to this Exchange Student Program because I am dreaming to go to America since 2017, when I was only 11 years old. I'd love to have new experiences, to learn English and to become more independent. I think it is a great opportunity because it will allow me to broaden my way of thinking, to know American culture and to meet new interesting people.

I'm currently attending the 3rd year of an Italian high school, the European classical gymnasium. There we study 10 subjects and we stay at school from 08:00 till 17:30 every day, that is a little unusual for Italian high schools. We study French, English and some subjects are only in those two foreign languages, such as law and economics (in English) and history (in French). When I will be in America, I hope I would be able to continue my French studies. We will graduate in 5 years and we will have the opportunity to take not only the Italian diploma but also the French diploma (called ESABAC). At school I think I am a good student and I do prefer classical subjects to the scientific ones.

If I had to choose three adjectives that best describe me, I would choose the optimistic, independent and unselfish. I believe that in each situation there is always a positive side and that we must always focus on that one only. For this reason, I never let myself be discouraged by any situation and I always try to face everything positively.
