All about Piyorat:

Dear my future family,

My name is Piyorot, but I usually go by Finn because my Thai name is quite hard to pronounce. I was born and raised in Thailand. When I was a child, I move around between my granny's house and my mother's house quite a lot. I am fifteen years old. I'm very easy-going and chill. When it comes to listening, I try my best to be open and respect everyone's opinions. I like to listen to indie-pop music or indie-folk. I like to play my guitar and ukulele. And I also like watching crime and romantic movies. I'm very passionate about writing music. I've been writing more than 10 songs since last year.

At the moment I'm studying about Arts. I speak fluent in English and Thai and a little bit of French. I want to go to the US because in my opinion, studying abroad will allow myself to experience different cultures and perspectives, including meeting new people. Studying in a new country can also means changing your habits to adapt to new situations too I truly think that from this exchange program experience I will gain a completely new way of life. I will meet new culture and new people. I hope that when I finish my study abroad program and return home, I will return with a new perspective on culture, improved English skills, a great education, and a willingness to learn.

Can't wait to see you soon, Finn
