All about Paul:

My name is Paul and I am 15 years old. I live in Germany. There are a couple of reasons to do a high school year. First, I want to get to know to the American culture. Secondly, I want to go to the American high school and see how the school life is. Last, I want to improve my English and speak fluently after the year, and I hope I built up my international network.

If I had to characterize myself, I would describe me as a really open, humorous and positive person. In my class I am the class representative this means I solve problems in the class as well as I create a pleasant atmosphere. During the week, I spend the most time on doing sport. I play tennis since I am 5 years old and it still makes a lot of fun. I often play with my brother when it is possible. Actually, I am doing boxing because of the body condition you gain there.

The time which remains, I use for doing homework or learning for a class test. However, the weekend is like a break for me. I relax and watch movies, series or sports. I love to watch American sport, especially American football. Therefore, I would love to play American football. In summertime, I often go to the Baltic Sea with my parents to our weekend cottage.

In school I am really interested in History and scientific subjects such as Biology or Chemistry. History is interesting due to the fact that you talk about important events which also affect us today and the future. I like sciences, because they explain you how things like the body work. I love to experiment. I am looking forward to getting to know you.
