Can Live with Pets? Yes
Double Placement? Yes
Single Adult Host? Yes

Home Life:

I live with my mother, father, brothers.

Interest & Achievements:

I enjoy volleyball.

All about Jerome Alek:

Scalpel? Gauge? Forceps? Retractors? Check. I got your back. I am Jerome Alek, a 16-year-old soon-to-be STEM Student and an aspiring Neurosurgeon understanding that it will take tons of passion, commitment, and patience. I have a younger brother and an older brother.

I am interested in many things like Journalism. I've been writing articles since my 4th grade, competing against different schools. I have reached the regional division and am still training and doing my best to reach the internationals. I was also a former Grade 8 Representative of my school pupil government, this allowed me to see the cultural differences of my fellow students and their perspectives.

I was a social action volunteer as Director of Metanoia Philippines, an organization I founded along with a few core members. It is a Youth Organization that aims to improve the importance and impact of social media in a person's life. I play volleyball within the community and with my fellow school varsities as a wing spiker and a setter.

My main goal in life is to be a Neurosurgeon so that I can be a vessel of healing in my country. Cerebral and spinal anatomy is mesmerizing, learning this is like reaching the summit of mount Everest. I desire to understand and master the complex of Neurosurgical Anatomy.

I am a dreamer, I always think of what, how and when an imagination can make an impact and shape the mentality and flow of the world to continue striving.
