HS USA
HIGH SCHOOL IN THE USA

Home Life:
I live with my father

Interest & Achievements:
Basketball, Guitar, Robotics, Badminton, Tennis

All about Phichayut:

Dear my future family,

My name is Phichayut or you can call in short 'Pak'. I am 16 years old. I am studying Grade 10th at an International Demonstration School. I am an easy-going, funny friendly person. Sometimes, I could be a 'nerd' because I love writing and reading most of time? For my hobbies, I enjoy robotic / coding and I hope that I could turn these hobbies into career path in the future as a software engineer. I have lots of interests in computer science and new technology. I wish to study coding / programming in high school in the US because that is what I am passionate about. In additional, to spend a year abroad, I would like to learn about new environment and connect more with people from different cultures. To me, connect with people is very important.

I truly believe in having fun and do activities, study and learn from one another. I would be enjoying the US cultures, seeing things and perhaps some travel. I will lean and speak English as much as I could. My hope and dream are to make these Exchange experiences a memorable; it's a great opportunity to share and to learn from you and high school teachers in the USA. I wish to share about Thailand as much as possible, and the Asian culture as well. I will make some Thai food for you to try, I hope that you would enjoy them!

Can't wait to see you and spend a year abroad with you

Pak
